9336 TECHNICAL INFORMATION

INSTALLATION AND SAFETY INSTRUCTIONS FOR YOUR SAFETY

WARNING: Be sure the electricity to the system you are working on is turned off; either the fuse removed or the circuit breaker set at off.

Read and understand these instructions before installing fixture.

This fixture is intended for installation in accordance with the National Electrical Code and local regulations. To assure full compliance with local codes and regulations, check with your local electrical inspector before installation. To prevent electrical shock, turn off electricity at fuse box before proceeding.

Retain these instructions for maintenance reference.

INSTALLATION

1. Remove applicable knock-out from switch box housing.
2. Install strain relief (not supplied) to switch box housing.
3. Feed low voltage power supply into switch box.
4. Make electrical connection.
5. Install switch box housing into mounting surface, secure.
6. Install lamp.
7. Install trim with screws.

WARNING: Use of other manufacturer's components will void warranty, U.L. listing and create a potential safety hazard.

LAMPS: T5 WEDGE BASE 12V LAMP

All glass wedge base lamps are designed for long life and severe operating conditions including shock, vibration, heat, cold and moisture. With no metal base or soldered connections to loosen, break or corrode, these lamps will operate in high ambient temperatures. Xenon lamps offer long life, high intensity and white color similar to halogen.

LAMP INFORMATION							Lamp data is based on manufacturers published information recalculated at approx. 12V.
CAT #	VOLTS	WATTS RATED	WATTS CONSUMED	LIFE (HOURS)	LUMEN	COLOR (TEMP°K)
